MIDAS

MICROSTROKING STYLUS

From the special Advanced Needle to the elegant stylus, every detail in MIDAS combines careful engineering and meticulous design. Patented design that is unlike anything you've seen on the market.

MIDAS is MEI-CHA's answer to your microblading needs, and the perfect solution to a simple and hygienic procedure every time.

Perfect Results

MIDAS delivers efficient and precise strokes with industry leading design. Needles are pre-configured to the 17° golden angle and paired with premium sharp needles, tested to easily insert the pigment into the skin.

Highest Safety Standard

Each component is fully sterilized, and made with medical grade material in certified facility. Seamless molded stylus paired with edgeless Advance Needle ensures no contamination.

Ergonomically Designed

MIDAS delivers the most natural way to microblade. It keeps the flow without feeling constricted. The non-slip grip of our Advanced Needle paired with the subtle curve on the Stylus were engineered to give you the utmost stability, control, and comfort.

Assembly Made Easy

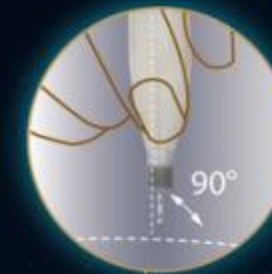

One piece Advanced Needle design, MIDAS has simplified the process into one step. All Advance Needle are pre-configured to the golden angle, which eliminates the need to tighten and assemble the needles on your own.

MIDAS: DESIGN MEETS PERFORMANCE

★ Maximize color retention ★ Minimize retouch ★ Precise strokes

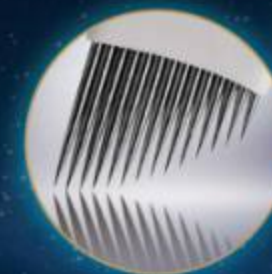

Ergonomic Design

Helps to distribute pressure evenly for consistent result.

Medical Grade

Needles are made from high standard medical grade stainless steel, sharp and precise.

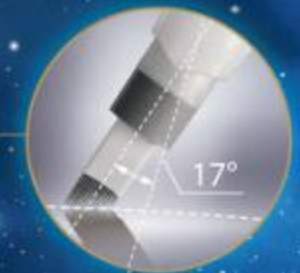

Comfortable Grip

Featherweight ergonomic stylus with extended non-slip grip.

Safety

Completely disposable all-in-2 design.

Exclusive Design

Pre-configured to the golden angle at 17°, easy set up for procedures.
