adeline+ Aesthetic Center Starter Platform  
Multiple Features. One Extraordinary System.

SYNERON  CANDELA®

# adeline+ Aesthetic Center Starter Platform

Multiple Features. One Extraordinary System.

Large touch screen with pre-set parameters to provide safe and effective treatments for all skin types powered by elōs™ patent technology

Ability to customize the system to 6 clinical applications, allowing you to expand your aesthetic center by providing a large range of aesthetic treatment offerings

Versatile, non-invasive aesthetic solution for pain-free hair removal, pigmentation, small blood vessels, scars, acne scars, stretch marks and wrinkle reduction

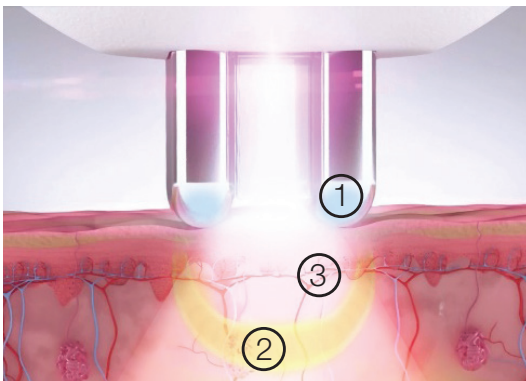

Adeline + meets patient demands fast, effectively, with minimal discomfort and the highest safety features

Adeline partnership program available for your center's marketing needs

## elōs™ Technology

The Adeline + applicators use the revolutionary elōs™ technology, a combination of safe and effective levels of infrared light and bi-polar radiofrequency energies to remodel the deep dermal layer of the skin by stimulating new collagen growth.

### How does elōs™ work?

1. Contact is made with the skin and cooling begins
2. Optical energy pre-heats the target tissue
3. Radiofrequency energy is drawn towards the heated target deep inside the dermis and both energies work to treat the target tissue

# GROW<sup>↑</sup> Your Aesthetic Business Quickly!

## 6 elōs™-based clinical applications, allowing you to expand your aesthetic center and provide more aesthetic treatment offerings

- Syneron Candela patent technology
- Short, safe and comfortable treatment for all skin types
- Clinically proven, physician-endorsed technology worldwide
- Utilizes elōs™ patented technology, incorporating Light and RF energies in synergy

### ST+

The ultimate skin tightening for face and neck

- Both immediate and long-term tightening effect
- Short, safe, comfortable and effective treatment
- Multiple clinical studies conducted worldwide

### AC+

Treats active, inflammatory acne in all skin types

- Short, safe and effective treatment
- Multiple clinical studies conducted worldwide
- Reduces sebum secretion and overall inflammatory response

### SRL+

Pain-free skin rejuvenation applicator

- Eliminates pigment spots, sun damage and superficial small veins
- Includes both pulsed and motif operating modes
